- ✓ Configured to your specifications and tested in our State-of-the-Art facility
- ✓ Superior performance and functionality to meet your needs
- ✓ Cost Savings compared to new hardware
- ✓ Short turnaround time to deploy and install into your environment
- ✓ Professional Installation available

** Maintenance contracts are available on whole unit purchases*

WHY DataVista ...

We maintain an extensive inventory of spares for your legacy Server, Network, and Storage needs. We have the parts that help you stretch your support budget. From cables and memory to drives and head units, every component in our stock is tested.

Our R2:2013 certified and accredited process provides the highest level of testing and Quality Assurance for all parts and whole units in our inventory. Our process meets or exceeds industry and OEM standards.

Our Engineering teams have been providing expert support including Professional services, Logistics, Maintenance, and Implementing Data Center infrastructure solutions to our valued clients since 1994.
