

Data Vista IT Asset Disposition

Top 5 Benefits of an efficient ITAD process

- ✓ Recoup Value from your surplus and obsolete equipment
- ✓ Ensure Secure Data Security / Data Destruction
- ✓ Compliance with Government and Corporate mandates
- ✓ Lower your Logistics costs
- ✓ Help the Environment – No Landfill

An efficient IT asset disposition program ensures that the entire process is completed in a timely and efficient manner resulting in reduced costs of logistics and overhead. With a Data Vista ITAD solution in place, the process of staging, removing, remarketing, and recycling of your surplus and obsolete IT assets is professionally managed to eliminate unnecessary costs, rack space, and time.

WHY Data Vista ...

NJDEP
Quantity Universal
Waste Handler

As a respected R2:v3 certified leader in the Secure Sustainable ITAD industry, you can trust Data Vista to Responsibly Recycle 100% of your equipment or at our secure facility. Data Vista will provide a complete asset audit trail and detailed reporting as well as a Certificate of Data Destruction for all your IT assets and media devices.

Data Vista guarantees 100% of your data is destroyed through either software, degaussing, or physical destruction methods.
